

# SERPENTINE BELT KITS

B40340-C

**Precision-matched components designed to work seamlessly together ensuring a reliable, worry-free installation – right out of the box**

Designed with premium OE-quality materials, this kit offers a long-lasting solution for both technicians and customers. Unlike other kits that come in multiple boxes, ours arrives in a single, thoughtfully designed package, eliminating damaged parts, missing components, and unnecessary waste. Each part is clearly labeled for easy identification, reducing installation time and frustration.

## Why Choose Cloyes Kits?

**Quieter Operation** - Reduces noise and vibration especially during cold starts or accessory engagement.

**Controlled Engagement** - Fabric backing helps manage slip and tension changes, ideal for systems with A/C cycling/rapid load shifts.

**Superior Wear Protection** - Reinforced outer layer minimizes abrasion from back-side pulley contact and rough edges.

**Better Heat Management** - Dissipates heat more evenly across the belt surface, reducing hot spots that can lead to cracking or glazing.

**OE Fit, Form, Function** - Built for long-term performance and backed by legendary quality and service of over 100 years.

## What's in the Kit?

**Highest Quality Tensioners** – Engineered for smooth operation and reduced wear.

**High-Strength Pulleys** – Minimize vibration, extend system life, and ensure proper belt alignment.

**Premium Fabric-backed EPDM Belt**, designed to withstand the harsh conditions of high-mileage engines, tight routing, and daily driving.

**Belt Routing Guide** – Engine-specific belt routing guide for accurate installation.

Cloyes, based in Fort Smith, Ark., is the North American leader and global designer, developer, manufacturer, and distributor of timing drive systems and components for original equipment manufacturers and the automotive aftermarket. Its products are mission critical components for engine performance and function and are used in high-performance and replacement applications. Cloyes serves a broad customer base, including wholesale distributors, national and local retailers, re-packagers, and production engine rebuilders, and sells its products under the Cloyes® brand worldwide and the Dynagear® and CY-LENT® brands throughout North America.

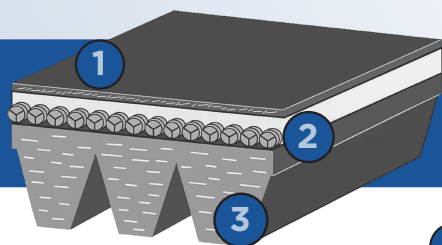

# SERPENTINE BELT KITS

## B40340C

**Engineered for the Real World. Trusted by Professionals. Worry-free installation in one box.**

When it comes to accessory drive systems every component plays a critical role in performance and longevity. A worn pulley, stretched belt, or weakened tensioner can lead to premature failure, costly repairs, and unexpected downtime. We recommend replacing all belt-driven components together for optimal performance and long-term reliability.

### PREMIUM FABRIC-BACKED BELT

- 1 Fabric-Backed Top:** Maintains grip and tension under extreme conditions
- 2 Tension Cord + Cushion:** Resists heat build-up, cracking & glazing
- 3 Ribbed Base:** Reduces noise and vibration

### Key Features and Benefits:

**OE Quality Belt Tensioners:** Available in both round and flat spring types, based on application, and designed to reduce wear and maximize efficiency across all driving conditions.

**High-Strength Pulleys:** Made from high-strength steel or reinforced polymer for maximum durability, reduced vibration and reliable performance under any conditions.

**Premium Fabric-Backed EPDM Belt:** Designed to withstand the harsh conditions of high-mileage engines, tight routing, and daily driving.

**Smart, Single-Box Packaging:** Eliminates wasted space, prevents missing parts, and reduces damage during shipping and storage.

**Industry-Leading Warranty & Support:** dedicated technical support to ensure hassle-free installation and performance.
