

Billet Crankshaft Sprocket Upgrade Ford Coyote S1015 & S1039

Cloyes Ford 5.0L Coyote billet crankshaft sprockets provide a machined billet steel upgrade over the failure prone OEM sintered/powdered metal sprockets.

Upgraded billet sprockets are available for both the early 2011-2014 timing system, and the later 2015-2021 timing system.

HIGH PERFORMANCE TIMING PRODUCTS

Key Features and Benefits:

- Features precision-tooled tooth form, bore, off-set and timing index for superior fit, reliability, and long-term performance in engine timing repairs
- CAD designed and manufactured using premium materials and heat-treated for OE-level fit and function, allowing for smooth installation and reliable performance
- Each part is extensively tested for function, fitment, and durability to ensure consistent quality and optimal performance, reducing the risk of comebacks
- Available in application-specific kit or as a stand-alone product, offering installation flexibility and convenience
- Backed by Limited Lifetime Warranty and over 100 years in engineering leadership with unmatched technical support and repair confidence in every component.
